

National Day of Service – Pharmacy Interest Form

November 1-16, 2019

What is it the ACT Pharmacy Collaborative National Day of Service?

- A single day or multiple days during **November (1st through 16th) 2019** when students from the school/college of pharmacy visit participating CPESN pharmacy location(s) to support advanced pharmacist/pharmacy care services
- *Example:* First Saturday in November, college of pharmacy partners with 5 CPESN pharmacies, and sends 2-3 students to each pharmacy to provide blood pressure screenings for the day.

Purpose:

- Increase patient/community engagement at CPESN pharmacies nationwide
- Expose student pharmacists to advanced pharmacist/pharmacy care services at CPESN pharmacies
- Foster partnerships between CPESN pharmacies and schools/colleges of pharmacy

How does it work?

Student pharmacists from our school/college will come to your pharmacy during the day you specify to host an educational event and support your patient care services. To aid us in the planning, we invite you to complete the intake form on page 2 so we can learn more about your pharmacy and when you'd like the students to visit.

What are we collecting to learn about success?

Students will be asked to document, through an online form, information about each Day of Service event including how many students attended, how many patients they were able to meet, what information was provided, and what impact they felt they were able to make. A full list of outcomes can be found at: www.actforpharmacy.com

How are we sharing? Social Media posts and flyers!

Students and our school/college of pharmacy will be posting before, during and after the event. We have flyers and bag stuffers we are able to personalize for your pharmacy and send to you to use at your pharmacy 2 weeks prior to the event. A comprehensive Social Media guide can be found at: www.actforpharmacy.com.

Example Post for Pharmacies BEFORE the event (see the website for more!):

Join us on [date] at [time] for #ACTforPharmacy National Day of Service. Student pharmacists from @[School of Pharmacy] will be here to work with people across [name of community] to provide care services, like blood pressure screenings and much more @commpharmacy @cpfgrants

National Day of Service – Pharmacy Interest Form

November 1-16, 2019

Name of Pharmacy: _____
